Section 1–Introduction

This directory provides a list of Kaiser Permanente’s network providers. To get detailed information about your health care coverage, please see your Evidence of Coverage.

Your Primary Care Provider

You will have to choose one of our network providers who are listed in this directory to be your Primary Care Provider (PCP). The term “PCP” will be used throughout this directory. Generally, you must get your health care services from your PCP.

Your PCP meets state standards and is trained to give you primary medical care. He or she will usually practice general medicine, also called internal medicine or family practice. Women may also choose specialists in obstetrics-gynecology whom the Medical Group designates as Primary Care Providers. At some facilities, you also have the option of choosing a nurse practitioner (NP) or physician assistant (PA) to be your PCP.

Your PCP will give you most of your care. If you need a specialist, your PCP will help you choose a doctor in that field and work with him or her as part of your health care team.

You can choose your PCP from any of our available primary care doctors, nurse practitioners, or physician assistants. Once you make your choice, it is effective right away. If you wish, you can change your PCP for any reason.

Choosing or changing your doctor

We believe that an important part of your total health is building a personal relationship with your primary care doctor, physician assistant, or nurse practitioner. He or she is your supporter for your health needs and goals, helping you with everything from preventive care exams and advice for healthier living to treating you when you're sick.

Whether you’re new to Kaiser Permanente or a longtime member looking for a change, choosing a personal doctor to coordinate your care is easy. You can learn about each doctor's certifications, specialties, languages spoken, interests, and more on kp.org/mydoctor/connect to help you find the right fit for you.

If you want to make a switch, you can change your doctor at any time and for any reason.

Care for your unique needs

You can choose your personal doctor from one of the departments listed next.

- Adult or Internal Medicine (Internists)
- Family Medicine (Family practitioners)
- Obstetrics-Gynecology (Ob-Gyn)
- Pediatrics For infants, children, adolescents, and teens.

Nurse practitioners

At some facilities, you also have the option of choosing a nurse practitioner.

Nurse practitioners are registered nurses who have advanced education and training. They can diagnose and treat a wide variety of medical conditions, write prescriptions, order and interpret lab and medical imaging tests, and educate and give advice to members and their families. They practice with a doctor’s supervision and support according to carefully controlled procedures.
How to choose or change your doctor

Online
Go to kp.org/mydoctor/connect. Find information on the available physicians and choose the one who’s right for you.

Phone
Call the Member Outreach or physician selection service number at the facility where you plan to get most of your care. Your family is free to choose different doctors at different locations.

Getting Covered Care

For Senior Advantage members, you must use network providers except in emergency or urgent care situations or for out-of-area renal dialysis. If you obtain routine care from out-of-network providers, neither Medicare nor Kaiser Permanente will be responsible for the costs.

For Kaiser Permanente Medicare Cost members, you must use network providers for care to be covered by our Plan except in emergency or urgent care situations. You may use your Original Medicare coverage separate from your Health Plan benefits and obtain care from out-of-network providers. If you do so, ask the out-of-network provider to file a claim directly with Medicare. You are responsible for Medicare coinsurance, any unmet portion of deductibles, and, for charges from providers who do not participate in Medicare, amounts up to the Medicare limiting charge.

Bills from out-of-network providers

If you receive a bill from an out-of-network provider, you should not pay the bill. Send it to our Claims Department and they will let you know how much you have to pay.

Claims Department
P.O. Box 24010
Oakland, CA 94623-1010

Emergency and urgent care

If you have an emergency medical condition, call 911 or go to the nearest hospital. When you have an emergency medical condition, we cover emergency care anywhere in the world.

For ease and continuity of care, we encourage you to go to a Plan hospital Emergency Department if you are inside our service area, but only if it is reasonable to do so, considering your condition or symptoms.

If you have an emergency, we will talk with the doctors who are giving you emergency care to help manage and follow up on your care. The doctors who are giving you emergency care will decide when your condition is stable and the medical emergency is over.

After the emergency is over, you are entitled to follow-up care to be sure your condition continues to improve.

The "network providers" listed in this directory have agreed to provide you with your health care and vision services. You may go to any of our network providers listed in this directory; however, some services may require a referral. If you have been going to one network provider, you are not required to continue to go to that same provider. In some cases, you may get covered services from non-network providers.

To see a specialist, you usually need to get your PCP’s approval first. (This is called getting a “referral” to a specialist.) However, you do not need a referral to get specialty care from network providers in Ob-Gyn, optometry, psychiatry, and chemical dependency.
continues to be stable. Your follow-up care will be covered by our Plan. If your emergency care is provided by out-of-network providers, we will try to arrange for network providers to take over your care as soon as your medical condition and the circumstances allow. It is very important that your out-of-network provider call us to get authorization for post-stabilization care before you receive the care from the out-of-network provider. You will only be held financially liable if you are notified by the out-of-network provider or us about your potential liability. **For Kaiser Permanente Medicare Cost members:** If our plan does not cover the post-stabilization care, but Original Medicare does, you will pay the Original Medicare cost-sharing amount.

**For Senior Advantage members:** You must use plan providers except in emergency or urgent care situations, or for out-of-area renal dialysis or other services. If you obtain routine care from out-of-network providers neither Medicare nor Kaiser Permanente will be responsible for the costs.

**For Kaiser Permanente Medicare Cost members:** If you want your care to be covered by Kaiser Permanente, you must use network providers for care except in emergency or urgent care situations. You may use your Original Medicare coverage separate from your Health Plan benefits and get care from out-of-network providers. If you do so, ask the out-of-network provider to file a claim directly with Medicare. You will need to pay for Medicare coinsurance, any unpaid deductibles, and, for charges from providers who do not participate in Medicare, any costs up to the Medicare limiting charge.

Durable Medical Equipment Suppliers

Durable medical equipment (DME) requires prior authorization by the Medical Group ("prior authorization" means that the Medical Group must approve the services in advance). If your treating provider determines that it is medically necessary, then you will be authorized to receive DME consistent with the terms of your health coverage. **Note:** Durable medical equipment coverage is limited to the standard item of equipment that adequately meets your medical needs. We decide whether to rent or purchase the equipment, and we select the vendor. If you have any questions, please contact **1-855-80KPDME (1-855-805-7363).**
